

## ***Myself again***

a girl needs space if she wants to do it all  
It's too hard to share  
All what she dreams of  
And not to compromise  
When she has someone in her life

a guy can nail you to the ground sometimes  
it's not especially him  
it's not that he does not love enough  
it's just being there  
he's cutting part of her dreams in two

it's not you I am leaving  
it's me I'm freeing  
I won't be happier  
but I will not blame you  
for it anymore

When you are around,  
I am not exactly me.  
I just hope that  
I will be able to find  
Myself again
